

Hi Laura,

The Science Team have provided the following feedback and the CoA required.

"the parent was HUVEC from Life Technologies catalogue number C01510C, lot 1827621. I have attached the CoA which has the negative HIV result etc."

I hope this information is helpful.
Please let us know if there is anything else that you need.
Best wishes
Fiona

Hi Laura,

Thank you for this information.
I have passed this across to the Science team.

Should you have any other questions in the meantime, do not hesitate in contacting us.
Best wishes
Fiona

Dear Nikki,

The lot number of our ZHC-2402 cells is 29715. Thank you for your efforts.
Have a nice weekend!

Best regards, Laura
